------------------------------	---------------	--------------------	------------------	--------------------

Why GGIS Tathawade?

GG International School, Tathawade is equipped with state-of-the-art facilities, curriculum and educators that can facilitate your child's journey of self-discovery and help them realize their maximum potential.

Envision your child graduating from GGIS - a confident citizen, ready to take on challenges, equipped to be an architect of tomorrow. This is how we prepare our students:

a. Technology:

Technology is an integral part of learning. Through virtual classrooms, VR, AR, and robotics, we create interactive, engaging, and future-ready experiences that expand student exposure and strengthen digital fluency.

b. Interdisciplinary Approach:

GGian students learn math concepts through art, music, and history. They analyze and compare information across subjects, thereby polishing their creativity and critical thinking skills.

c. Student Engagement

We encourage peer learning, free exchange of ideas, and an open-minded engagement. Our innovative pedagogies transform classrooms into a place to discuss, learn, explore, and apply concepts.

d. Solution-based learning

Problems cannot be solved by thinking at the problem's same level. Our pedagogy inculcates daily exercises that cultivate an innovative mindset while developing resilience, teamwork and a positive attitude.

Practices that make us stand apart

- Professional Development
- Observations and Feedback

5 Pillars of our Curriculum

Facilities

What parents and students say about us?

Parent's Name : Tejender Singh

"I am extremely pleased with the care and service provided by GGIS Care. My child has shown remarkable growth. Communication with the staff has always been smooth and reassuring. They keep me informed about my child's daily activities, as well as any concerns or achievements, which gives me great peace of mind. I highly recommend GGIS Care to any parent looking for a place where their child will be cared for with love, attention, and professionalism."

Student Name : Shreeshiva Suryavanshi

"I am grateful to GGIS for giving me the ability to dream and the resources to achieve those dreams. It fostered my interests and encouraged me to be a better version of myself. The environment during my 11th and 12th standards, along with the Ankuram NEET program, helped me secure admission in a prestigious government medical college (BJMC Pune). I will forever be indebted to GGIS for molding me into an accomplished person and a future doctor."

The spirit of GGians!

GGians form a strong community driven by the philosophy of Swatmanan Bodh- Journey of Self Discovery. An ideal GGian has the following core values:

• Compassion • Courage • Empowerment • Integrity

Proud to be associated with
